

Difference between exception and error?

Exception	Error
<p>1. An exception is caused by our program.</p> <p>2. Exceptions are recoverable.</p> <pre>try{ 10/0; } catch(Exception e) { -----; }</pre> <p>3. in java exceptions are classified as checked or unchecked type.</p> <p>checked -> interrupted Exception</p> <p>unchecked -> AE, NPE, etc..</p>	<p>1. An errors are not caused by our program.</p> <p>2. Errors are not recoverable.</p> <p style="text-align: center;"><i>outofmemory error</i></p> <p>3. errors are only unchecked type in java.</p>
